Solutions for Adobe InCopy based environments

Publishers

Typically, teams of several editors simultaneously work on a large number of texts and articles. Against the deadlines! axiao MadeToCompare is the ideal text modification checker and document version tracker for users of Adobe InCopy.

Copywriters and printer prepress departments

Especially with text heavy and/or highly specialized documents in multiple languages and versions, requiring external copywriters' assistance. MadeToCompare is the perfect tool to track versions and verify text content correctness. The use of MadeToCompare simplifies document production for multiple media applications in multiple language versions, and reduces human errors.

Agencies

This allows all internal and external players in the content production chain to maintain the necessary accuracy throughout their writing projects. The use of MadeToCompare simplifies document production for multiple media applications in multiple language versions, improves efficient editorial collaboration, reduces human errors, and facilitates adherence to customer's corporate brand requirements.

Business reports

With MadeToCompare for InCopy, differences are easily detected between last year's numbers and company information compared to those of the current year. Thanks to a clear listing, all important company data can be checked with regards to accuracy and necessary information will not get lost.
